

Homework Assignment #6

Due Friday 10 October

Read Chapter 7 of the textbook and answer the “Study Guide” and “Calculation” questions at the end of the chapter.

Specifically, hand in written answers to:

- Odd-Numbered Study Guide questions
1 - 31
on pages 216 - 217 (233 - 235)
- Calculation questions 1 - 6
on page 218 (236)

Study Guide questions are mostly multiple choice. Ponder the “Questions to Ponder” - You should be able to answer them, but you needn’t provide written responses to them. (It might also be helpful to do a quick re-read of Chapter 6.)

Again, page numbers in green are for those using the fourth edition of the textbook.
